

Big Mountains, Big Powder, Big Smiles from SWS!

3 days of bliss from one of the industry's best!

We just got back from **Selkirk Wilderness Skiing** and the three most epic days of powder catskiing we have experienced. It was a trip we will be talking about for years to come. Everything seemed to come together just perfectly: the snow started Sunday afternoon bringing 30cms of fresh fluff, the sun poked out each morning, the crew we skied with were an incredible amount of fun, and the food and beverages topped off the trip just right!

We want to thank our guides Jason, Lydia and Todd and the rest of the staff at **SWS** for an unforgettable time. They make the experience at Selkirk one that makes you want to keep coming back year after year.

Below are a few shots from our trip. They are of us and the other guests enjoying the latest powder offering from the dry Selkirk weather systems. Stay tuned for more photos, videos and articles chronicling our epic trip to **SWS**.
